McCullough's Clothing Float Best in Big Sports Parade

The parade on Wednesday morning in conjunction with the Didsbury Lions Club Jubilee celebration was one of the best ever held in Didsbury, according to old time residents, and with fine weather prevailing in the morning the streets were lined with over 250 people from all districts surrounding Didsbury.

The parade was led by Clifford Johnson's Model T Ford, with Harold Wood, Russell Fulkert, Chris Flannagan and Jim Rouleau, judged as wearing the best beards in the contest; this was followed by cars carrying old timers of the district; Didsbury-Carstairs Band led by Majorette Gwen Dainty; I.O.D. E. Float with Carnival Queen contestants; 18 saddle horses and Western outfits; Joe Fulkert's oldtime outfit; Mrs. McCoy's decorated cart; Harry Richardson's old time outfit; Didsbury Dairy float; Eleven Decorated Bicycles; Decorated Shetland Ponies; Indian family; J. V. Berseth and Sons Float; McCulloch's Clothing bathing beauties float; Didsbury Municipal Hospital float; Crystal Dairy float; Red & White Store float; C.G.I.T. float; Decorated cars; Army jeep; Army tank; Jake Braun's 1900 homeosted car; Army van; Massey Harris combine; Mr.

Cornick-Deering combine; Oliver Tractor driven by Mrs. W. Payne; Phil Andrews' hay sweep; C. H. Rinchart's 1905 Runley tractor; Grey pulling a tractor; Gale by driving tractor; and to bring up the rear were six children with their dogs pulling carts, as well as children with dogs on leashes, etc.

When the parade was over the judges announced prize winners as follows:

Tony Garceau, 1st.
Male Indian—1st, Norman Pie Stem, Sarcee Reserve; 2nd, Eddie One Spot.

Indian Squaw—1st, Linda One Spot, 2nd, Cella One Spot.

Glamor Costume—1st, High Coat, Calgary; 2nd, Glen Fulkert.

Old Time Outfit—1st, Joe Fulkert; 2nd, Harry Richardson.

Floats—1st, McCulloch's Clothing; 2nd, I. O. D. E.

Western Costume—1st, Bob Fulkert; 2nd, Geo. Gillrie.

Decorated Bicycle—1st, Beverly Wiggins; 2nd, Pat Halliday; 3rd, Gladys Ford.

Shetland Pony—1st, Bennie Gillrie; 2nd, Eddie Blain; 3rd, Ronald Morris.

Kind Dog—1st, Don McArthur; 2nd, Jean Krueger; 3rd, Billy Sheean.

WHEAT BOARD SETS PRICE FOR BARLEY AND OATS

The Wheat Board has announced that where barley for malting purposes or for the manufacture of pot or pearl barley is especially selected, a premium of up to 5¢ a bushel over the maximum price for barley may be paid. Last year, no premiums were allowed on these types of barley.

The advance equalization payment on barley this crop year is 15¢ a bushel as compared with 20¢ last year. The ceiling price on barley remains at 64¢. The ceiling price on oats remains at 61¢. The advance equalization payment on oats is 10¢ a bushel.

Mr. and Mrs. Russell Fulkert and family went blueberry picking west on Sunday and came home with full pails.

LONG YEARS AGO

August 24, 1904

Hunsperger and Atkins have sold a J.I. Case threshing rig to H.L. Reimer.

Everybody in town was out duck shooting yesterday and some good bags were reported.

The second annual Fall Fair will be held on September 29th.

Mr. B.P. Dick left for Manitoba Monday with two car loads of horses which he will dispose of while away.

Members of the Legislature have been summoned to meet in Regina on Sept. 22.

Didsbury Markets: Live Steers, 3¢ per lb.; Live Pigs, 4½¢ per lb.; Eggs, 17¢ per doz.; Butter, 12½¢ per lb.; Hay, \$4 a ton.

Participation Payment For 1944 Crop More Than 16 Cents

Trade Minister MacKinnon announced in the Commons last week that the participation payment to western wheat farmers on their 1944 crop will be "considerably" higher than the 16-cent payment previously announced and the payment on the 1945 crop will be "relatively lower."

Making the announcement as the House begins study of the grain export appropriation in his departmental estimates, the minister estimated:

C.P.R. TRAIN TIME TABLE

| Train No. | To Calgary |
|-----------|-------------|
| 522 | 4:51 a.m. |
| 524 | 11:59 a.m. |
| 526 | 3:29 p.m. |
| Train No. | To Edmonton |
| 521 | 1:10 a.m. |
| 523 | 10:50 a.m. |
| 525 | 6:19 p.m. |

All the above trains are daily

DIDSBURY DAIRY TURNS OUT FIRST CHOCOLATE MILK

The Didsbury Dairy, operated by Tom Morris, turned out the first Chocolate milk in its history on Wednesday morning and the proprietors donated a quantity of this delicious product to the Lions Club to sell at the booth on Jubilee day. Thursday and Friday chocolate milk was on sale to local house-holders but the supply did not last long.

Due to restrictions on chocolate syrup Mr. Morris can make no definite announcement as to when he will again have chocolate milk for sale but he hopes to be able to put out the product on the week ends if present plans materialize.

WORTHINGTON-CAMPBELL NUPTIALS IN CALGARY

A quiet wedding took place at the First Baptist Church, Calgary, on August 10, when Jewel Della, only daughter of Mr. and Mrs. O. D. Campbell of Windfall, Alberta, became the bride of John Worthington, son of Mr. and Mrs. J.B. Worthington of Didsbury. Major Rex officiated at the wedding.

The bride wore a floor-length dress of white silk jersey with a three-quarter length veil and carried a bouquet of red roses. Her bridesmaid was Miss Margaret and wore deep pink and carried a bouquet of sweet peas.

The best man was Reg. Worthington, brother of the groom.

A wedding dinner was served at the York hotel in Calgary. The young couple then left for a honeymoon trip to Banff and Jasper.

Harness Races Provide First Rate Entertainment Satur'd'y

The Harness and Open Run races postponed Jubilee day, August 14, due to rain, were held at the Didsbury race track on Saturday afternoon under ideal weather conditions and a large crowd was on hand to enjoy the best race program ever put on in Didsbury.

222 CLASS
Alta Maid, owned by A. Foster, Dodsland, Sask., and driven by Foster; 2nd, L. J. Jim, owned by C. Taylor, of Gull Lake, Sask., and driven by Taylor; Bud Wilkes, owned by W. L. Foster, Dodsland, Sask., and driven by H. H. Bube, Rex, owned by A. Foster, Dodsland, Sask., and driven by Forsyth; Lou Underwood, owned by A.E. Spooner, Madison, Sask., and driven by Code.

There were three heats in this race, and results were:
Heat 1: 1. 2. 3.
Alta Maid 4:30
L. J. Jim 4:31
Bud Wilkes 4:32
Lou Underwood 4:33
Rube Rex 4:34

Prize winners were: 1st, Lou Underwood; 2nd, Rube Rex; 3rd, Alta Maid; 4th, Bud Wilkes; 5th, L. J. Jim.

Time of the first heat was 2:18; 2nd, 2:19 and 3rd, 2:21.

218 CLASS
In the 218 class there were five entries: P. O. Direct, owned by L. Menard, Balzac, Alta., and driven by Menard; Sue Mc I Win, owned by N. Rutledge, Fort Dodge, Iowa, and driven by Forsyth; Alberta Rose, owned by N. Rutledge, Fort Dodge, Iowa, and driven by Jack Cathness; Lillian Russell, owned by A.W. Gillrie of Didsbury and driven by Gillrie; and Annabelle Patch, owned by N. Rutledge, Fort Dodge, Iowa, and driven by Code.

Results of the three heats were as follows:
Heat 1: 1. 2. 3.
P. O. Direct 2:30
Sue Mc I Win 2:31
Alberta Rose 2:32
Lillian Russell 2:33
Annabelle Patch 2:34

Prize winners in the 218 class were: 1st, Annabelle Patch; 2nd, P. O. Direct; 3rd, Lillian Russell; 4th, Sue Mc I Win; 5th, Alberta Rose.

Time of the first heat was 2:14; 2nd, 2:15 and 3rd, 2:19.

FREE FOR ALL
In the Free-For-All Class there were four entries: Duchess of Windsor, owned by C. Taylor, Gull Lake, Sask., and driven by Foster; Miss Jewell, owned by N. Rutledge, Fort Dodge, Iowa, and driven by Forsyth; Florence French, owned by L. Menard, Balzac, Alta., and driven by Menard; and Blanche Asworthy, owned by A. Smith of Kerrobert, Sask., and driven by Code.

Results of the heats were as follows:
Heat 1: 1. 2. 3.
Duchess of Windsor 2:30
Miss Jewell 2:31
Florence French 2:32
Blanche Asworthy 2:33

Prize winners in the Free-For-All class were: 1st, Duchess of Windsor; 2nd, Miss Jewell; 3rd, Florence French; 4th, Blanche Asworthy.

Time of the first heat was 2:14; 2nd, 2:15 and 3rd, 2:19.

1-MILE RACE
In the 1-Mile Open Run race there were also five entries. Listed below:

Heat 1: 1. 2. 3.
G.L. Rau, Bellevue, Sask., and driven by Rau; 2nd, Harry Wait, Olds, 4th, and Monty, owned by H. Wait, 5th.

Geo. Haag of Carstairs was starter of the races. Ned Rutledge of Fort Dodge, Iowa, and Geo. Anthony of Calgary were timers. E. A. Summerville, Calgary, and F.J. Colley, Stettler, were judges; and Jas. Cathness of Didsbury was clerk of the course.

Harness race horses running Saturday have been making the rounds of Saskatchewan and Alberta race tracks this summer and from Didsbury they went to River where the same program will be carried out.

JUBILEE SPORTS DAY CARRIED OUT UNDER BIG HANDICAP—RAIN

The Old Timers' Jubilee Celebration sponsored by the Didsbury Lions Club drew a large crowd Wednesday, August 14th and got under way in the morning with a monster parade which was enjoyed by one of the largest crowds ever assembled in Didsbury.

Following the parade the crowd gathered at the exhibition grounds for the sports events and the ball tournament was commenced with Melvin and Didsbury playing the opening game. Many Old Timers were on hand at their headquarters on the grounds, and the carnival opened up with excitement prevailing on all sides.

However, about one o'clock in the afternoon the skies became overcast and heavy showers set in for about two hours. It looked as though the day's sport was over and the horse races were postponed until Saturday afternoon, but when skies cleared the other events were continued, including baseball and ladies' softball games.

The Carnival Queen was crowned at 5 p.m. as previously arranged, with Miss Mary Wood setting the record by receiving the highest number of votes in the contest.

The jitney dance had to be postponed on the grounds, but in the evening a large crowd attended the dance in the Opera theatre to wind up the day.

Mr. and Mrs. R. C. Ray Celebrate Golden Wedding

M.B.C. BIBLE CAMP MEET HELD AT GULL LAKE

It was a great event for some boys and girls of Didsbury and community when the large Sorenson bus rolled into Didsbury Camp grounds. About 30 children climbed aboard and away they went to spend eight exciting days at the beautiful camp grounds of Gull Lake Bible Camp.

The weather for the most part was very fine and another Camp is being planned for next year about the first week of August.

CALGARY TANKS NOW KING'S OWN REGIMENT

The King has approved the redesignation of the 14th Armored Regiment (The Calgary Regiment) to the 14th Armored Regiment (King's Own Calgary Regiment). It is announced by Headquarters, M.D. 13.

The redesignation was attained when Major General R. M. Luckock, C.B., C.M.G., D.S.O., Colonel of the King's Own Rifle Regiment, expressed his desire for closer unity between the two units in a communication to Lt.-Col. D. F. Rogers, M.B.E., P.D., former commander of the Calgary Regiment (Reserve).

Mobilized in 1941 as the 14th Army Tank Battalion, the unit proceeded overseas in June of the same year. Squads of the tanks saw action at Dieppe, and three members of the unit were decorated for gallantry on the beach-head.

Prize winners in the Free-For-All were: 1st, Miss Iowalla; 2nd, Florence French; 3rd, Duchess of Windsor; 4th, Blanche Asworthy. Time of the first heat was 2:12½; 2nd, 2:09 and 3rd, 2:10.

MILE OPEN RUN
There were five entries in the Mile Open Run race, with the following results:

Heat 1: 1. 2. 3.
G.L. Rau, Bellevue, Sask., and driven by Rau; 2nd, Harry Wait, Olds, 4th, and Monty, owned by H. Wait, 5th.

Geo. Haag of Carstairs was starter of the races. Ned Rutledge of Fort Dodge, Iowa, and Geo. Anthony of Calgary were timers. E. A. Summerville, Calgary, and F.J. Colley, Stettler, were judges; and Jas. Cathness of Didsbury was clerk of the course.

Harness race horses running Saturday have been making the rounds of Saskatchewan and Alberta race tracks this summer and from Didsbury they went to River where the same program will be carried out.

Mr. and Mrs. R. C. Ray celebrated their golden wedding anniversary on August 11. Mr. and Mrs. Ray were married in 1896.

Each is 74 and active. Mrs. Ray devotes much of her time to Red Cross work and during the war assisted in making hundreds of quilts. Mr. Ray whose hobby is his garden also helps his son on the farm and in the winter, when they retired and moved into town.

They have nine children and all but two were present at the celebration. 35 grandchildren and two great-grandchildren.

The five sons are: Lloyd, Terrace, B.C.; Ivan, Nitche River, B.C.; Jesse, and Glen, Didsbury; Howard, Carstairs and the four daughters are: Mrs. N.F. (Molly) Nelson, Blue River, B.C.; Mrs. Henry (Edna) Thompson, Riverview, B.C.; Mrs. L.J. (Eva) Cooley, Chinook, Alta.; Mrs. Ross (Hazel) Youniss, Didsbury.

Old friends and neighbors join in wishing Mr. and Mrs. Ray many more years of happy married life.

August 11 marked the golden wedding anniversary for Mr. and Mrs. R.C. Ray of Carstairs, who were honored by members of their family at a gathering in the Carstairs United Church.

Married in Iowa 50 years ago, Mr. and Mrs. Ray came to Alberta in 1902 and took up a homestead west of Carstairs where they resided until last year, when they retired and moved into town.

Each is 74 and active. Mrs. Ray devotes much of her time to Red Cross work and during the war assisted in making hundreds of quilts. Mr. Ray whose hobby is his garden also helps his son on the farm and in the winter, when they retired and moved into town.

They have nine children and all but two were present at the celebration. 35 grandchildren and two great-grandchildren.

The five sons are: Lloyd, Terrace, B.C.; Ivan, Nitche River, B.C.; Jesse, and Glen, Didsbury; Howard, Carstairs and the four daughters are: Mrs. N.F. (Molly) Nelson, Blue River, B.C.; Mrs. Henry (Edna) Thompson, Riverview, B.C.; Mrs. L.J. (Eva) Cooley, Chinook, Alta.; Mrs. Ross (Hazel) Youniss, Didsbury.

Old friends and neighbors join in wishing Mr. and Mrs. Ray many more years of happy married life.

FROST THREAT GIVES CAUSE FOR PICKING GARDEN PRODUCE

(By our Burnside correspondent)

The frost warning issued by the meteorological bureau sure put the fear of the Lord in 99 per cent of the farm folks here as elsewhere. As one man said, "More peas, beans, etc. were picked and canned last Thursday than has ever been done in a single day before."

Mr. A.B. Dyck spent Monday of last week with Mrs. Mardon at the farm.

A. Francis of Illinois has been visiting with Mr. and Mrs. Walter Fulkert.

Casey Campbell, who worked for a number of years at the Calgary airport and later at the Model Dairy, was married in Calgary last week.

A truck load of future enroute to the coast. As he is combining business with pleasure on this trip, he will be absent from his regular route for a couple of weeks.

Lester and Mr. and Mrs. Harold Shells were a long way from home on Sunday, being seen in the vicinity of Sundre greeting their own neighbors.

Mrs. Emily Hunter and Johnnie were up from Calgary visiting during the week end.

Mrs. H. Birdale took a trip over the highway to Calgary on a business visit.

Edith Threlt spent the week end at home this week.

Wm. Falk Sr., late of Sunnyslope, spent Monday visiting with his son, Wm. Jr. and Len and left on Tuesday for his home in B.C.

All Burnside took in the Parade on Wednesday last and were unanimous in their praise.

G.A. Morasch has purchased a large Massey-Harris tractor. We wish him success in its operation.

Mr. and Mrs. Ed Watkins and Violet returned Wednesday last from a couple of weeks' holiday.

ANNOUNCEMENT
Mr. and Mrs. W.O. Miller of Didsbury announce the engagement of their daughter, Ruth Irma May, to Mr. Murray Anderson, son of Mr. and Mrs. T. Anderson of Victoria, B.C., the wedding to take place on September 9, 1946.

Miss Mary Wood is Carnival Queen

The Carnival Queen Contest held in connection with the Lions Club Jubilee celebration, was completed Wednesday afternoon and when the votes were counted, Miss Mary Wood was declared the winner, and was crowned Queen of the Carnival in an impressive ceremony at the grounds late in the afternoon.

The contest was well supported by the people of Didsbury and district, who donated \$2,122.33 to the swimming pool fund by buying votes for their favorite contestant.

There were four contestants in the event. Miss Olwyn Hughes, Miss Jean Krebs, Miss Gwen Morgan and Miss Mary Wood and the final figures revealed that Mary was first with 68,110 votes; Gwen was second with 51,906; Olwyn was fourth with 44,404 votes.

The girls all worked hard to head the poll and for their efforts were presented with large white evening gowns, and all the accessories as well as a travelling bag.

National Parks Of Canada Prove To Be Strong Attraction For An Army Of Tourists

SUMMER activity in Canada's national parks is in full swing, but the peak of visitors may not be reached before another month. Roads and trails, many of which have been little used during the war time, are now alive with gay, carefree people bent on enjoying to the full that long-postponed vacation. Automobiles of almost every age and model loaded with holiday equipment, bicycles that had given noble service through war years and are still expected to carry more than a normal load, riders and pedestrians, all moving along the park highways and by-ways headed for some favorite scenic spot.

The park waters too have been re-discovered by the canoeist and the angler. Many of the lakes and streams in the park areas have had an interval of three or four years in which to build up their fish population, and park fish hatcheries have continued to stock them in anticipation of the time when travel to the national parks would resume normal proportions. Now at last that time seems to have arrived, and a great many of the angling fraternity are taking full advantage of these improved conditions.

Although Canada's national parks were established primarily for the purpose of preserving certain outstanding scenic areas and for conserving the wild creatures within those areas, they have, largely because of these features, become an important factor in the tourist industry of Canada. This importance has grown with the years. In a little more than 60 years the parks have been expanded from 10 square miles to a total area of more than 20,000 square miles. The rise in the number of visitors has been equally progressive. In the years between the two World Wars the attendance at the national parks increased from 166,000 to more than a million visitors.

With a return to normal conditions this record number of visitors should be equaled and even surpassed. There is every indication that during 1946, tourist travel to Canada's national parks will be heavy and will tax existing catering facilities to the limit. Indeed, it may be wise for these who can bring along their own sleeping accommodation to do so. Government campsites have been established in all the principal parks. Many of these are equipped with electric light, running water, kitchen facilities, community buildings, fuel, stoves, benches and modern sanitary facilities. It is generally possible to get food supplies reasonably close to one of these campsites.

The question "where to go?" is always a little difficult to answer as far as the national parks are concerned. It depends very largely on one's tastes in scenery, in recreation, and in sport. Those who seek a holiday in the mountains have a wide choice. In the Rockies there are the famous alpine resorts, Banff and Jasper, now completely open to the most spectacular scenic highways on the North American continent. In the Selkirk are Yoho, Kootenay, Mount Revelstoke and Glacier National Parks, each with a charm and majesty distinctly its own. Down in the southwest corner of Alberta, Waterton Lakes National Park with its colorful peaks, varied flora and fauna and its good fishing has a special appeal to good visitors.

Besides the mountain parks there are two big game preserves in Alberta. Elk Island National Park 30 miles east of Edmonton has since the closing of Buffalo National Park at Wainwright, become the new home of the buffalo. Some of its natural scenic attractions have been developed and it received more than 25,000 visitors in 1945. Wood Buffalo National Park lying partly in Alberta and partly in Northwest Territories is, as the name implies, a reserve for the wood buffalo.

The other prairie provinces, Saskatchewan and Manitoba, have each one national park. Prince Albert National Park in Saskatchewan is a great wilderness lake and a paradise for the canoeist. Established less than 20 years ago it has already developed into a magnificent playground. Riding Mountain in Manitoba, high up on the Manitoba escarpment, was set aside as a national park two years after Prince Albert was established, but for many years previous to this it was a forest reserve.

In the province of Ontario there are three comparatively small national parks. Two of these are composed of groups of islands. St. Lawrence Island National Park and Georgian Bay Islands National Park. The third, Point Pelee, is a small peninsula jutting out into Lake Erie and is well known as a resting place for migratory birds.

The two most recent areas to be added to Canada's national parks system are both in the Maritime Provinces. Prince Edward Island National Park is a 25-mile strip along the north shore of the island province and includes many spots immortalized in the books of Lucy Maud Montgomery. And lastly Cape Breton Highlands National Park, with its rugged coastline and mountain background, offers a deep-sea angling, adds something quite new and different in the way of national park areas.

The national parks of Canada represent an important asset which

can not be depleted by use as long as reasonable care is taken to preserve their natural features. They can be used again, year after year, by hundreds of thousands of visitors and yet handed down from generation to generation, their beauty unimpaired, their allure and interest undiminished, to be used and enjoyed as a great national heritage. Today these national playgrounds have become an indispensable part of the aesthetic and cultural life of the people of Canada, and Canadians are using them to a greater extent than ever before.

Items Of Interest

In Ethiopia, it is possible in a single day to travel from a region of oppressive heat to one of intense cold.

The famed Swedish botanist Linnaeus built a flower clock that told time by the opening and closing of the flowers.

A game similar to checkers was played by the Egyptians as early as 1600 B.C.

In early England coins sometimes were cut in halves or quarters to make change.

Spaghetti originated in China and was introduced in Europe through Italy by Marco Polo.

In the time of Queen Elizabeth, the English were required by law to eat fish on 155 days of the year.

The Indians of Guatemala may purchase their wives on the installment plan. If a husband decides not to keep a wife he may return her and get his money back.

The moth of the silkworm has lost the ability to fly and is completely dependent upon man for survival.

BEGINNING OF THE END HOLLYWOOD.—The much-discussed role of Franklin Delano Roosevelt in the film, "The Beginning of the End," will be portrayed by Godfrey Tearle, famous for 50 years on the British stage and screen. Sam Marx, producer of the atomic bomb picture, announced the choice after viewing tests made by Tearle upon his arrival from England.

One of the bungalow cabins used by visitors to Banff National Park, Alberta, Canada. National Film Board photo.

Millions Of Aliens

Said To Be Trying To Gain Entry Into United States

MIAMI, Fla.—Since the end of the Second Great War, millions of aliens have turned their eyes and hearts toward the United States and now are pouring into this country—illegally—at the rate of 2,000 a day.

That is the estimate of United States Attorney General Tom Clark, who said that of the 60,000 who entered this country unlawfully in a month, 30,000 were arrested by the immigration and naturalization service, perhaps better known as the border patrol.

The border patrol, a part of the immigration and naturalization service, has increased its staff in the southeast from 50 agents in 1938 to 110.

These men, highly-trained and well-equipped, patrol 60,000 miles a month in the area between the eastern boundary of Louisiana and the northern boundary of South Carolina. This area ranks next to the Mexican border in the number of aliens arrested.

The aliens picked up in the last six months, either unlawfully in this country or attempting to enter, included criminals, stowaways, escaped aliens and the riff-raff of many countries.

Desiring scavenge of every nationality from the largest group of illegal entrants in the southeastern states. Large numbers of aliens of many nationalities come into the country illegally from Mexico. Agricultural workers, brought into the country by the war manpower commission, who desert their jobs form another group of illegal entrants.

Thunder accompanies every flash of lightning, although you may not always hear it.

A New Town

To Be Located In Northern Manitoba Near Mining Camp

Northern Manitoba is witnessing the birth of a brand new town at Snow Lake, about 100 miles from the main line of the Hudson Bay Railway and 50 odd miles from Sherritt Gordon Mine. The name of the town has not been announced, but there is every evidence it will be a model community planned to the last detail by provincial engineers, and not like the usual run of Canadian mining communities that just grew like Topsy.

At the moment there hasn't been a start on even main street. All that can be seen are the bluish lines of the surveyors. But on the plans is a school here, houses there and the business centre all strategically located. Soon the bulldozer will be carving the first little community out of the bush and the temporary bunk houses and coker will be replaced in the next two years by rows of homes and lighted business places.

But building of the town is only a small part of the job at Snow Lake that must be done in a hurry. Before July, 1948, a 50-mile power line has to be completed from the Sherritt Gordon, a thousand feet of sinking must be done, a mine opened up and a 2,000-ton mill erected.—Northern Miner.

TURTLE WAS OLD

WATKINS GLEN, N.Y.—Fishing in Lake Seneca near Ticonderoga, Albert Smith hauled in his casting line to find at the end a 30-pound snapping turtle estimated to be more than 200 years old.

There are more deaths from electric shock during the summer than in any other season, due to the moistness of the skin.

Research In Whaling Industry Has Been Made To Prevent Any Danger From Extinction

(By Dr. F. D. Gannaway in London Calling)

QUITE an important part of our margarine and soap is made from whale oil, so a failure in the whaling season can quite easily lead to a cut in our fat ration. I want to tell you about research in the whaling industry that have a direct bearing upon the available fat supplies of the world.

In the years before 1939, thirty or more factory ships of various sizes—they were mostly big ships—went and worked along the Antarctic pack ice every year. Each ship caught about 1,200 whales in a season—say a total of 40,000 whale every year.

And recently, after a lapse during the war years, new ships, specially built in the last year or two or old ones re-fitted, have been going out to the Antarctic again. Some of these factory ships are enormous things, 20,000 tons or more being, in fact, half tanker and half factory. In these great floating factories, whale oil is produced by boiling down every scrap of the carcass—blubber, meat, bones and guts—under pressure in huge boilers.

Now the question is, even with the present world shortage of food, are we going on killing 40,000 whales a year without lowering the whale population to such an extent that it cannot recover? Were we, in fact, killing a greater number of whales before the war than that of the young ones coming along to replace them?

To answer a question like that you have got to know quite a lot about the habits of the animal concerned, and unfortunately when it was first suspected that we might be over-fishing, nearly 25 years ago—practically nothing was known about the habits and natural history of whales. Obviously you cannot draw up regulations to control the hunting of fishing of an animal that you know nothing about.

The area in which modern Antarctic whaling started was the seas round the island of South Georgia, 800 miles east of the Falklands, and the other islands that fringe the Antarctic to the south of South America. These islands, known as the Dependencies of the Falkland Islands, are part of the British Empire, and have been under the control of the British since 1842.

It was the Colonial Office that decided to send a scientific expedition to the Antarctic to find out about the habits of the whale. So in 1921, when it was decided to study whales, a party of zoologists went to South Georgia to do the shore side of the job. Near one of the shore whaling stations a laboratory was built, and for five years scientists worked there every whaling season—the southern Summer, from about October to May.

What was done was to go across the bay to the whaling station, measure and examine every whale as it came up the shipway. Its length was noted, the contents of its stomach was examined, its sex was noted.

Over 3,000 whales were inspected at South Georgia, and in the winter of 1925 the ship, the "Discovery", sailed for the south coast of Africa. In all, some 4,000 whales were measured and examined. What we were after was to find out, just as in fishery research, whether we could get any clue as to the age of whales, or any sign of a grouping of lengths according to age by measuring and examining the catch. Then we also wanted to find out the age of whales when they were full grown, when they had their first young, and how many young they had at a time. We wanted to know the proportion of old to young whale year by year, and the proportions of bulls to cows, the male and female whales are called.

In 1925, the Colonial Office bought Captain Scott's old ship, the "Discovery", from the Hudson Bay Company and fitted her out as a deep-sea research vessel. She was fitted with laboratories and gear for hauling water-sampling bottles and nets. The "Discovery" sailed for the south coast of Africa, and spent two years there. During those two years she did a lot of pioneer work, and laid the foundation of a long term of research into the problems of the Southern Ocean, about which almost nothing was known at that time.

In addition to all these observations of the sea itself, some whales have been marked. What was done was to shoot a small steel dart at the whale. Each dart was numbered and fired from a 12-bore gun so that it became lodged in the blubber. The Colonial Office pay a reward of £1 to the factory hand who finds one of these darts and returns it to Whitehall. In all, about 190 have been returned so far, and although this may not sound very many, it is really quite satisfactory when you think about it—you must realize that there are all sorts of ways in which the dart can get lost.

So far as we can see at the moment, whales are not long-lived animals. Blue and fin whales are fully grown at from eight to ten years, and any whale which is 20 years old is probably quite ancient. The results of marking whales are still very far from complete, but it seems that both blue and fin whales

actually return to the same part of the Antarctic after their northward migration.

Before the war, there undoubtedly were signs that the population of blue whales, the best and most valuable of all, was being seriously reduced. Fin whales, on the other hand, did not seem to have suffered to anything like the same extent. The blubber, next in importance after the fin, seemed to have suffered most of all. We do not think that these whales are yet in danger of extinction, but we do know that if a population of animals is reduced below a certain point it seems to lose the power of recovery—even if hunting ceases.

Based very largely on these "Discovery" researches, which had been going on in the south for ten or more years, the main whaling stations got together in 1937 and agreed on regulations for controlling the whaling industry. Investigations are still going on, and will continue.

The Norwegians are carrying on similar researches, to sure, and have been going on in the south for ten or more years, the main whaling stations got together in 1937 and agreed on regulations for controlling the whaling industry. Investigations are still going on, and will continue.

To sum up, I might say that modern research on whales has been stimulated by economic problems. We are now in a position to say quite a lot about the habits of the whale. And that, in time, will enable us to save the whale from such and such a limit, but if you go beyond that there is a definite danger of so depleting the stocks that your great and essential industry will be killed by over-fishing.

Lord Incheape

Story About Britain's New Ambassador To United States

Lord Incheape, Britain's new Ambassador to Washington, told the National Press Club he bore no resemblance to the average man's conception of an Ambassador. His Lordship confessed that he had no state until Paul Whelan, president of the club, gave him a pair. He had no striped trousers, because the Japs had sunk his entire wardrobe three years ago.

What he did have was a small black satchel supplied him by the Embassy, in which papers of international importance were to be carried. "But you'd be disappointed if you asked into the satchel," said the Ambassador, "because it contains a lot of paper and my extra set of teeth."—New York Post.

Editorial

SPORTS DAY A NECESSITY

If the Jubilee celebration of the Didsbury Lions Club was not a complete success as far as weather was concerned it was from a financial standpoint, despite the small gate receipts, and funds raised will be devoted entirely to the Community Swimming Pool project. The funds so far gathered are sufficient to assure the town and district of a swimming pool and the Lions Club is to be highly congratulated on its efforts to date.

The Jubilee celebration itself was well planned and had it not been for the untimely rains in the afternoon all events would have been concluded on schedule. However, the crowd was sympathetic and stayed or returned to the grounds later to enjoy themselves the best they could under the circumstances and their patronage was appreciated.

The Jubilee celebration proved one point that seems to have long been a stumbling block in Didsbury's progress, and that is that a good sports day, planned along the lines of the Jubilee, is just what the community wants and is willing to support, and it is hoped that next year and each succeeding year Didsbury will again entertain the people of the town and district to a bang-up sports day.

DIDSBURY THEATRE NOTES

The Opera Theatre has just installed the newest type of lens, which promises to give you the best pictures possible and also enlarges the entire picture.

LOCAL NEWS NOTES

Mr. and Mrs. Charlie Mortimer spent Monday of this week in Calgary.

Miss Peggy Morgan of Lethbridge spent five days visiting her family and friends here and left on Wednesday for her home.

Mr. and Mrs. Geo. Gerlitz have returned from Edmonton where they have been holidaying.

Miss Joyce Morgan left Wednesday to spend a week's holiday with friends in Calgary.

The regular meeting of the Ladies' Auxiliary to the Legion will be held Wednesday evening, August 28th, at the Masonic Rooms.

Mr. and Mrs. Arthur C. Webb of Three Hills attended the Jubilee on Wednesday and afterwards visited at the home of Mr. and Mrs. W.E. Styles.

Mr. and Mrs. Jerry Blanchard were guests of Mr. and Mrs. Lou Boles during their vacation, having come up to take in the Jubilee but owing to the rain, attended the sports and races on Saturday. It was Mr. Blanchard's first visit to Didsbury and he was impressed by the hospitality of the many people he met. They left on Monday for Cochrane and will spend the remainder of their two weeks in the mountains, taking pleasant memories of their stay in Didsbury with them.

Mr. and Mrs. Elmer Sanderman and son-in-law and daughter, Mr. and Mrs. M. Erickson, of Storm Lake, Iowa, arrived on Saturday and are visiting with the former's mother, Mrs. Lena Sanderman, who is quite ill at the V.L. Wollen home. Mr. and Mrs. Carl Sanderman of Storm Lake will remain here to help care for his mother.

WESTCOTT NOTES

(This Week)

The W.V. Lawrence family of Oakland, Calif., returned from their visit in the northern part of the province on Sunday and visited with relatives before proceeding to their home. While here they had the pleasure of being driven over the muddy roads west of Cremona when Mr. and Mrs. Herbert Goelzen took them to visit Mr. and Mrs. W.E. Papke. I guess they will really appreciate the California roads after that trip.

Mrs. John Stevenson and baby son Grant came home from hospital on Wednesday and are staying with their relatives, the Herb Goelzen family at Westcott.

Many of the Westcott folks were out in the showers on Wednesday to attend Didsbury's big Jubilee. All reported a good time in spite of rain.

Mr. and Mrs. Linden Jacobsen were seen riding in the races in Didsbury Saturday afternoon and were fortunate enough to ride some of the winners. We say—well good!

Crops are ripening fast and cutting will be general in another week. Linden Jacobsen is cutting a nice crop of barley grown on summerfallow.

One 28-ft. Grain elevator. One 16-ft. Grain elevator. One 18-ft. Grain elevator. A small washer, \$23.50. Range Oil Burners. Wheel conversion for your old wagon. A Rubber lined Wagon. A Tractor Shade Top. These are now on hand at Cassidy's.

Mrs. H. McCullough was a business visitor in Calgary on Tuesday.

The regular monthly meeting of the Legion will be held on Wednesday, August 28th, at 5:30 p.m.

Howard Halliday created quite a lot of excitement and some keen competition among the local gentry when he offered a \$10 prize for the best beard grown by other than Lions Club members for the Jubilee celebration. The beards were many and of all descriptions, colors and variety, but when the contest was judged on August 14th Jim Rouleau won Howard's prize and on the strength of it is away to B.C. for a presumed holiday.

Fred Sanderman of Ghost Pine, Mr. and Mrs. Will Sanderman of Three Hills, Mr. and Mrs. Ted Sanderman of Olds, and Lee Sanderman of Calgary visited their mother, Mrs. Lena Sanderman on Sunday. Also visiting here were her grandchildren Mr. and Mrs. Leonard Sanderman and Kenny, Mr. and Mrs. Ruben Maerz of Three Hills, Mrs. Norma Boettger and Ralph of Cremona, Mr. and Mrs. Lester Krebs and Mr. and Mrs. Frank Herbert of Didsbury.

-: NEWS OF THE DISTRICT :-

WESTCOTT NEWS NOTES

(Too late for last week)

Crops and gardens in this district should have received much benefit from the nice rain of last week as things were quite dry and the grain at the filling stage, it needed the moisture, especially late crops. Some frost is reported and many gardens show the results of the thermometer dipping quite low, particularly the beans and even the potato vines are nipped in places.

We welcome back to the neighborhood Mr. and Mrs. Otto Folkmann and family of Creston, B.C. We understand they will take up residence at Mrs. Folkmann's old home, the Dageford place.

Marjorie Elaine and Leslie Goetjen are holidaying at the home of their grandparents, Mr. and Mrs. Herman Papke of Elkton. Elaine's holiday was cut short however, when she became quite ill and was taken home. We are glad to report that it was not serious and is better once more.

Mr. and Mrs. Clarence Reinhardt returned Thursday from a two week's motor trip through points in B.C. and the U.S.A.

Mr. and Mrs. Herman Dageford and family returned home this past week after holidaying at Sylvan Lake.

Word has been received that the Benson's of Westcott, who are on a motor trip in the U.S., are expected home shortly.

Miss Deloyce Goetjen is spending a few days in Didsbury at present as the guest of Miss Joyce Buhr.

Elwood Scott who is employed by Mr. Clifford Murphy during Mr. Murphy's illness, met with an accident while fencing and had to be taken to hospital. We are pleased to hear his condition had so improved that he was released the next day. We might add that Mr. Murphy expects to be home from the hospital very soon.

Congratulations to Mr. and Mrs. J. Stevenson upon the birth of a fine, big son on August 6.

Little Gloria-Jean Stevenson is staying with her aunt, Mrs. Ruth Goetjen.

Mr. and Mrs. Allan Vipond and family left Sunday for a short holiday in the mountains.

Mr. and Mrs. Lester Barnes of Washington, U.S.A. arrived unexpectedly at the home of the latter's parents, Mr. and Mrs. W. Herbert on Wednesday last. Lester is on

NOTES FROM THE EAST

On behalf of the Lone Pine W.I. we would like to convey congratulations to the Queens of the Jubilee. The girls really deserve credit for the splendid job each did for her sponsor. So again, thanks to the successful Queen, Mary Wood and thanks also to our own representative, Olwyn Hughes who did so well for us. We were all sorry that the day did not turn out as well as we hoped but let's not be discouraged folks. It was for a good cause.

Mr. and Mrs. Edris Jenkins and daughters of Calgary have been holidaying with Mr. and Mrs. Dennis Jenkins for the past week.

Mrs. Mackie of Arrowwood has been visiting with Mrs. Joe Clarke for the past week and has now returned to Calgary to see her husband who is ill in hospital.

Mr. and Mrs. Harold Shells and son motored to Sundre on Sunday and remained there while in search of stookers.

Mr. Wilfred Snyder was a Sunday guest at the home of Mr. Wm. H. Coates along with Mrs. Walter McCulloch, Jessie and Norma.

Cutting has commenced in the district and crops have never looked better for years. We are thankful there has been no frost or hail as yet.

Mr. and Mrs. Dennis Jenkins spent the week end visiting with Mr. and Mrs. Bill Jenkins of Turner Valley.

On Wednesday, Jubilee Day, a great many friendships were renewed in the early days moved west, exchanged happy and pleasant greetings. Some of those now living in the west who have many friends in the east are, Renold Johnson and Mr. and Mrs. Glen Johnson.

crutches owing to an accidental bullet wound in his left foot, suffered while on leave from the army.

Mrs. Bert Pross of Didsbury visited at the home of her daughter, Mrs. T. Bolton the fore part of the week.

Mrs. Grete Kershaw spent a few days last week visiting at the home of her aunt, Mrs. Tom Collinge of Acme.

The final baseball playoff game of the season between Harman and Westerdale was played at Olds last Sunday with a good crowd of spectators in attendance. Harman proved to be the better team, and were victorious by a 4-3 score.

MELVIN NEWS NOTES

On Sunday last the four top teams in the Rosebud Baseball League played the first playoff games. Summit and Melvin played three five inning games on the home diamond, Melvin losing the first by a 16-8 score but taking the next two by scores of 10-0 and 2-1. At Reid Ranch Didsbury won the first two games and will meet Melvin this Sunday afternoon in the final games of the playoff. So don't miss the games this Sunday at Melvin. There will be three games of five innings each, if necessary, the first to begin at 1:30 p.m.

Mr. and Mrs. Bill Allan of Vancouver are again visiting with Mrs. Allan's parents, Mr. and Mrs. August Kreis after an extended holiday trip through Oregon, California, Mexico and other points in the U.S. They returned to Vancouver this week accompanied by Joan and Marion, who spent their holidays here.

Sunday guests at the Kenschuh home were Mr. and Mrs. John Snyder of Keoma, Mr. and Mrs. Dave Snyder of Mossleigh, Alberta and Mr. and Mrs. S. Johnston of Carstairs.

MOUNTAIN VIEW NOTES

Miss Marjorie Bruce arrived home last week from summer school.

Mr. and Mrs. Barney Elliott went to Calgary Friday and brought back a new Mercury light delivery he had ordered through Mr. Cassidy.

Mr. and Mrs. Lester Barnes were visitors in the district last week.

Mrs. C.P. Reimer has her sister from Montana visiting her.

Mr. Louis Kobut and Annie came out of the hospital on Thursday last and went home to Calgary on Saturday. Their friends and neighbors wish them a speedy recovery.

Mr. Tom Findlay, Miss Craig and Mr. Al Cook of Calgary all were up taking in the big Jubilee celebration.

Mr. and Mrs. Barney Elliott visited with friends at Crossfield on Sunday.

Mrs. Dawson and Rex had chicken dinner with the Shultz boys Sunday evening. How about being a cook instead of a cheesemaker Ken? They say you are a good one.

Mrs. Tom McCaig of Calgary spent most of the week with the boys and their families here.

Mr. and Mrs. Lloyd Haynes and children returned last week from points in the U.S.A. They say things are getting high in price down there.

Mr. Bill Hooper returned home and is now out of the army.

Herman Wollen, who has been visiting at his parental home, left Sunday for Butford, Alberta.

Mr. and Mrs. Claude Cressman of Carbon motored over on Wednesday to take in the Jubilee celebration held on that day.

IMPORTANT NOTICE

to all Farmers entered in
\$25,000.00 National Barley Contest
Sponsored by the Brewing and Malting Industries of Canada

BARLEY QUOTA INCREASED

to producers of malting barley

Under new instructions issued by the Canadian Wheat Board "there may be delivered from each farm, covered by a delivery permit book, one full carlot of barley accepted by a maltster or shipper and upon which a premium is to be paid for malting purposes.

This means that while the general barley quota remains at ten bushels per acre contestants in the National Barley contest and producers of malting barley obtaining a premium can ship up to one full carlot.

A premium of five cents per bushel will be paid on carlots of barley selected for malting.

NATIONAL BARLEY CONTEST COMMITTEE

206 GRAIN EXCHANGE WINNIPEG

WORLD HAPPENINGS
BRIEFLY TOLD

Payment of Britain's new retirement pensions of 26s (5.40) a week will begin in the first week of October this year.

Sir Charles Arden Clarke, resident commissioner of Basutoland, South Africa, has been appointed governor and commander-in-chief of Sarawak. Household taps, trays and spoons are being made at Britain's famous Woodwich arsenal, where, less than a year ago, tanks and guns were top priority.

Plans are being made for the resumption in Britain in 1948 of a 230,000 members of the U.S. Eighth Air Force who served in the country during the war.

British commonwealth countries still hold a total of 299,161 German prisoners of war. War Secretary Lawson said in a written reply to a parliamentary question.

Cost of conveyance of Their Majesties King George VI and Queen Elizabeth on the Royal visit to Canada in 1939 was £27,262 (\$109,048), it was disclosed.

The work of transporting 160,000 men of the Polish 2nd corps to Britain should be completed by the end of the year, it was learned in authoritative quarters. The movement started in July.

The Agricultural Institute of Canada will award 20 scholarships of \$800 each for post-graduate training at Canadian universities of recognized standing. C. G. O'Brien, institute secretary, announced.

Sixteen prize stam were down 700 miles from Adelaide, Western Australia, to Sydney for the annual Payment sheep sales. The flight took four hours and the rams, valued at \$30,000, suffered no ill effects.

Immortal Music

Precious Manuscripts of Composers Found in Germany

Precious music manuscripts of Bach, Beethoven, Mendelssohn, Mozart and Brahms which belong to the Berlin State library have been found in various parts of Germany by the Allied occupation authorities. The British news service in Germany reported.

Most of the manuscripts, including those of Bach's Christmas Oratorio, Beethoven's Fourth Symphony and string quartets, and Brahms's Violin Concerto, were found at Schloss Banz, Franconia.

The manuscripts of Bach's St. Matthew Passion and Beethoven's Missa Solemnis and Egmont Overture were discovered at Beuron Monastery. The first and second acts of Mozart's opera "Figaro" were found at Mueggelberg and the third and fourth at Gruessau Monastery in Saxony.

Among the other manuscripts which are rare are those of Beethoven's seventh and ninth symphonies and Mendelssohn's music for "A Mid-Summer Night's Dream."

Work Was Grim

Dutch-Canadian Girls Saw War Service in East Indies

Back in Canada after war service with the Netherlands armed forces in the East Indies, nine Dutch-Canadian girls told newspapermen some interesting details of their experience in an interview at the offices of the Dutch Information Service in Montreal.

Tall, blonde girls, for the most part, they all enlisted in the Dutch armed forces from Canada and served as nurses, stenographers, clerks and drivers in Australia, Batavia, Java, Indo-China and other parts of the explosive territory that has today taken the place of the once peaceful and prosperous Dutch Empire.

Four of the girls are Canadian citizens and five still retain their Dutch nationality although living in Canada. They arrived in New York from Australia and were going to their homes in various parts of the Dominion. Two of the girls Summa and Christine Prink live in Montreal.

Some of the girls worked in prison camps and after the Japanese surrender and had grim stories of the "starved skeletons of men and women" whom they helped nurse back to health and sanity. All of them had seen a tremendous amount of shot and shell in the last-minute fighting with the Japs and in the trouble between the Dutch and British and the extreme nationalism among the Indo-Chinese.

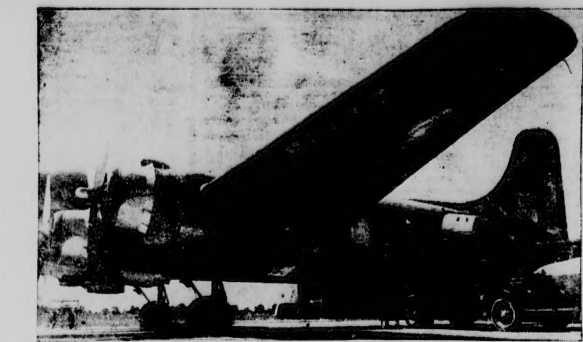

"It was pretty grim at times," said pretty, blonde Summa Prink, "but all of us should be glad to do it over again."

Oldest Locomotive

LONDON. The oldest British locomotive in service when it was retired at the end of 1945, was bought by the Great Western Railway to save it from being broken up. It was built in 1827 and used by the Wantage Tramway Company.

Making penicillin with ice cream makes possible its administration by mouth instead of through the usual hypodermic injection.

2683

AIRCRAFT RESCUES SUPPLIES PEAS FOR CANNING. To save surplus peas in the Trenton district of Ontario this four-motored American Airlines DC4, the "St. Joseph," was used to fly the legumes to Windsor, where the Essex county canneries were able to process them. Picked peas are packed in big cans for shipment.

Weather Forecasts

Science Of Predicting Weather Has Made Rapid Advances

During the war the science of predicting the weather advanced tremendously. Today this sophisticated technique is paying rich dividends.

In the United States alone it is estimated that benefits amounting to \$3,000,000 a year have resulted from scientific broadcasts, warnings and reports.

But the U.S. Weather Bureau together with co-operating Army and Navy meteorologists—no longer monopolize the weather forecasting field. A great many private meteorologists have entered the business, so many that it has now been suggested that the time has come for weather men to establish for themselves uniform standards of professional competence, as doctors and lawyers have done.

How a private meteorologist could expect to make a living might puzzle one on first thought. The answer lies in industry. A large New York bakery, for example, regulates its baking and deliveries on the basis of weather forecasts, because the public's buying habits change with the weather.

The moving picture industry has its own weather men to forecast light intensity and other weather factors that influence photography. Commercial airlines have their own meteorologists to make specialized weather forecasts for various flight routes. Candy-bar manufacturers, particularly those using chocolate, need to know hours ahead of time what the humidity will be. And cotton mills are among the latest industries to recognize the value of advance weather information which influences the operation of looms.

In the United States the Weather Bureau has welcomed newcomers to its field. Qualified private meteorologists are even permitted to cut in on the bureau's teletype network. So far as is known, no private meteorologist has set up shop yet in Canada. Canadians are entitled to specialized weather reports from government stations if they want them, and in cities like Montreal certain industries take advantage of the privilege. But equipment for a meteorological station is costly and a large staff is needed. Canada's cities are relatively small and it is doubtful if the private meteorologist will make his appearance in this country for at least some time—Ottawa Citizen.

Idea Caught On

Englishman First Introduced Iced Tea At St. Louis Exposition

The story of the origin of iced tea has run many a storytelling gamut but the truth of the matter is that it was started in North America back in 1903 at the time of the famous St. Louis Exposition. An English tea commissioner from Calcutta set up an elaborate exhibit at the fair to promote the sale of India and Ceylon black tea. He even built an expensive pavilion and tea bar in authentic Indian style. But the commissioner had no way of knowing that Missouri was having its hottest summer on record. He saw his investment expiring with the heat as fureverg chattered about soft drink stands trying to quench their thirst. His only alternative was to try an unheard of experiment—serving tea cold. When he sat the iced tea out on the tea bar a few curious bystanders sampled it. They liked it and as word got around, customers came in larger numbers and by the time the St. Louis Exposition was over, iced tea was well launched as a popular summer thirst quencher.

New Summer Material

A new material made from wood shavings and scrapings is being used by a Munich firm in the construction of small one-family houses. The British news service in Germany reported. The material, covered with thin coatings of cement, is made into plates two inches thick.

The horse of the eye continues to grow in size throughout life.

PASTERIZATION CAMPAIGN

GIVEN NATIONWIDE IMPETUS

Members of the General Council of the Health League of Canada at a recent meeting in Toronto gave impetus to the League's milk pasteurization campaign by passing a resolution calling on governments of all provinces to enact compulsory pasteurization laws. Ontario is the only province at present with such legislation.

The League Council consists of representatives of 51 national organizations—medical, professional, commercial and voluntary.

After hearing Dr. F. F. Tidball of the University of Toronto state that milk is the world's finest food but at the same time it could be a destructive agent if it was not in its raw or unpasteurized form, the meeting also asked through resolution that all national organizations pass similar resolutions and forward them to their provincial premiers through their provincial and local units.

Both Dr. Tidball and A. E. Berry, Director of Sanitary Engineering, Ontario Department of Health, emphasized that the only way to prevent milk-borne diseases such as typhoid, tuberculosis, undulant fever, typhoid and paratyphoid, among others, was to pasteurize.

Dr. Tidball said research at the Toronto Hospital for Sick Children proved that pasteurization does not damage milk's nutritive value. For instance, it was found that the process made milk's protein content more digestible, the minerals were not changed while any change in blatin content was not noticeable. As for vitamin C, it didn't matter what pasteurization did to it because milk, particularly if it was left standing for some time, did not contain an amount to be of value.

Dr. Berry said that since Ontario introduced compulsory pasteurization in 1935 the province's typhoid case and death rates now are one-quarter what they were before the law went into effect. Infant mortality also had taken a drop.

The meeting went on to record as commendable Vancouver, B.C., Hamilton, Sask., and Campbellton, N.B. on the recent passing of compulsory pasteurization by-laws in those municipalities.

Alaska Highway

Forecast Heavy Tourist Traffic For Next Year

WASHINGTON. Increasing tourist travel over the Alaska highway in 1947 is forecast by the Department of the Interior.

A review of road construction in Alaska notes that there is already some traffic on the 1,000-mile war-built highway which starts in Alberta and snakes through the north end of British Columbia and the Yukon into Alaska, but the road is not yet open to tourist travel in general because of the lack of facilities such as filling stations, repair shops and eating and sleeping accommodations.

The Next War

A Valid Picture Of What May Happen If It Ever Comes

Alone among the great powers, the United States concerns itself with forecasts of what might happen for the "next war." Its press, to the astonishment of Europe, teems with articles seeking to assess the nature and scope of that war and how best to devise defences against it.

Since in a few years knowledge of the manufacture of the atomic bomb will have spread to many countries, professional military opinion in the United States sees future battles waged mainly with long-range missiles. Flights of rockets will come hurtling across the Polar regions, passing over Canada in baleful flocks to lay United States cities in ruins. Consequently, the experts demand a system of defence that will include the power of retaliation as the best deterrent to attack. For such purpose the construction of a chain of rocket-firing bases throughout the continent and presumably in Canada's Far North, is the first essential.

These bases must be constructed either in natural or artificial caverns. For enough underground to be out of the reach of the lethal rays of the atomic bomb. Thousands of men will live there like troglodytes supplied with food and piles of atomic rockets to be fired in thousands at the far-distant enemy territory. Buried deeper will be a central defence headquarters controlling the whole operational system. Then, in addition, there will be radar warnings on an elaborate scale so that no time may be lost in preparing a crushing counter-attack. This will take the form of an invasion of enemy territory by airborne armor and after that presumably each side will attempt to bomb the other until the fate of the famous Kilkenny cats overtakes both.

In addition to this nightmare picture of a world gone insane, is the removal of all armament plants to mammoth caves, the accumulation beneath the earth of vast quantities of bombs and stores, and the dispersal of the populations of all great cities.

How civil government will function in this confusion of a pre-atomic atomic war, the imagination refuses to indicate. Probably there will be no civil government—only a military dictatorship. And no doubt before the war ends there will be no population either—Ottawa Citizen.

A Boon To Television

New Vacuum Tube Carries 10,000 Conversations At One Time

A basically new type vacuum tube that carries an electronic superhighway for communications has been announced by the Bell Telephone Laboratories, New York. The device is important in facilitating cross-country television, and will be used in systems of long-distance short wave telephone. More than 10,000 conversations, one hundred million words of telegraph a minute, or several dozen television shows can be handled at one time—should traffic ever become that great.

TO BUILD A TELESCOPE

TORONTO.—A barrel, a piece of thick plate glass and some emery powder will fill in the late summer spare time of Peter Harris, 13-year-old president of suburban Leaside's Astronomy Club. Peter wants a telescope. He could spend several hundreds of dollars for a reflector, or make it himself. He is going to make a 12-inch reflector.

Espionage Work

United States Is Urged To Do A Little Fiercely

NEW YORK. The Daily News, basing its observations on the Royal Commission report on espionage at Ottawa, editorially urged the United States to "pull ourselves together and do a little counter-spying."

The newspaper has urged for some months that the government establish a large peace time espionage organization.

"The well-established Russian network in Canada had and has branches in this country, Ottawa warns us," said the News, "and this country has a lot more things to be ferreted out than has Canada. Also we have more numerous, willing contacts for the spies to work on, in the widespread Communist organizations and their various groups."

"We have caught only one suspect so far, Lieut. Nicolai Redin, who is accused of trying to get away with the plans for a minor naval vessel."

"What we need to meet the Russian competition is Two Spies for One."

ISSUE NEW COUPONS

A new series of sugar coupons for temporary ration cards has been issued by the ration administration. The Prices Board said. The new coupons are green and have a buffalo design instead of a beaver. Both buffalo and beaver coupons will now be recognized as valid ration documents for temporary ration card holders.

Eight million tons of food were grown in victory gardens as a result of daily newspaper campaigns in Canada and the United States.

The Medicine Cabinet

Can Be Real Menace If Old Remedies Are Kept

Possibly the majority of homes possess a medicine cabinet which is mainly used in emergencies. Usually it contains old medicines and is a sort of shrine of comfort as a chest of cures for all manner of ailments and accidents. Thus many a household cabinet contains dangerous bottles and condiments, a menace probably from their age. The customary kind of first-aid for simple ailments may become a menace to the household. For bottles have corks which deteriorate from corrosion. The medicine may smell the same as when it was put up, but air has changed the substance within until it might be poisonous. Indeed, there sometimes is tragedy in a medicine cupboard not cleaned out and refurnished regularly. Espionage can make a tonic into strychnine. It is good counsel, anyway, to get rid of old medicine at intervals and to restock the chest. Also the contents of bottles should be washed down the drains rather than be put into trash barrels.—Brandon Sun.

MANUSCRIPTS FOUND

Precious music manuscripts of Bach, Beethoven, Mendelssohn, Mozart and Brahms, which belonged to the Berlin state library, have been found in various parts of Germany by the Allied occupation authorities. The British news service in Germany reported.

The Gulf Stream may vary from year to year in distance from the eastern coast of the United States as much as 100 miles, as well as in velocity and width.

OUR COMPLETE SHORT STORY—**AMAZINGLY YOURS**

By VERN GODWIN

Copyright
Wheeler Newspaper Syndicate

LOOKING at her husband as though it were his fault, Amelia complained, "This Choo-Min is too crisp." Her warm grey eyes narrowed in annoyance. "Now don't tell me that is the way I ordered it, either. I know I said crisp but they didn't have to get it so brittle."

George grinned good-naturedly and winked at his daughter and son-in-law. They started to smile, sobered as Mrs. Ames spoke again. "Judy, eat your Egg Foo Yung. It's good for you, and you need it. I think I'll have to come and spend another week with you and get you built up."

Judy opened her mouth to say something, then started eating. Ted frowned. "She weighs as much as she ever did," he said.

"Well, she wouldn't if I didn't watch over her. Look what happened when you moved to Albany. Poor Judy was worn out just from the packing up. If I hadn't gone right along with her and helped her get settled she'd have been in bed for a month. . . . and now I had to come up there every other week to see that she took care of herself. That's why I insisted that you move back here again near us so that I could keep a closer eye on her. Even now I hate to go off on this trip with George for fear she'll do something foolish."

George pulled out his watch. "We'd better hurry or we'll be late for the show."

The suggestion worked for Amelia never liked to be late for anything. But George was uneasy for he had an idea what was going through Ted's mind. The boy had a good healthy pride, and even though he was very much in love with Judy, there was a limit to some things. He hadn't learned yet that Amelia's cryer miner was just a cover up to hide a soft heart.

After they had left the young couple at their apartment and were on their way home, George ventured a suggestion. "Don't you think you're babying Judy a little too much? After all she is grown up and has been married a year."

Amelia almost drove through a stop light before she stopped. "Of course not. I know my daughter. She can't do things right without me. I've always looked after her, and I'll always have to."

George gave up. But it was time to do something about it. He lay

awake long that night as an idea formed.

At the office the next morning he stopped in the middle of preparations for a month's business trip through the west to give Ted to lunch with him. It was going to take some careful planning to get around Amelia, but she has been born in Missouri and perhaps the old "show me" adage would work.

Things went along fairly smoothly for three weeks. New towns and new faces always appealed to Amelia. Then, on the day before they were to start their return trip, George came back to the hotel room to find her feverishly packing.

"We're leaving in an hour," she announced. "I got plane reservations by telling them that Judy was in a serious situation."

"Judy? What's happened?" "She . . . she . . . Oh, read the letter. It's there on the dresser."

George snatched a grin. "I don't see anything here to get excited about. It just says they've bought a ranch."

"Not only a ranch, but a cattle ranch," she almost shrieked.

"Well, why not? That's what Ted studied for at college." Amelia ignored him. "Imagine taking poor Judy out on a place like that. . . . twenty miles from the nearest town . . . and they've already moved. That letter's over a week old. . . . Oh, my poor lamb! . . . all alone in a deserted ranch house. . . . I've got to get back there before she kills herself. . . ."

She snatched another bag shut. George managed to send a telegram to Ted. "Get out the Welcome mat and make it big."

Ted tried his best. He even had neighboring cowboys on horseback meet them at the ranch gate to escort their taxi the last half mile. Amelia was impressed, but not fazed. She was looking for Judy. They found her at the ranch house, dressed in jeans, riding boots, and an orange silk shirt open at the throat.

Amelia gulped in disbelief. "Why, I was never so amazed in my life," she declared to George as they got into her car a few hours later. "My Judy, dressed like a movie cowboy. . . . and proud of it. . . . and the house, all in perfect order. . . . and she wouldn't let me do a thing."

"That dinner wasn't bad either," George added. "Bad! It was perfect. I couldn't have done better myself. It's amazing," she repeated, almost regretfully.

George chuckled. "Well, isn't she your daughter?"

He would like to have seen Ted about now and said, "I told you so," as he recalled their lunch a month ago.

"Judy's really all that you could want her to be, Ted," he'd said. "Just give her a chance to break the apron strings and get going by herself and you'll see."

Ted hadn't looked too convinced then, but he had said goodnight, had whispered, "She's a regular chip off the old block," and winked and nodded at Amelia.

Well-Knit Secret

Germany Had Knitting Machine For Making Runproof Hosiery

Runproof hosiery for women can be made by a knitting machine developed by the Germans, according to the U.S. commerce department. A team of experts digging around in Germany for the commerce department uncovered it. It is a novel warp knitting machine which produces a runproof reinforced hosiery fabric. The Germans held it a closely guarded secret during the war and permitted only a limited number to operate in a few Bavarian and Czechoslovakian mills. The one investigated by the team was found in Czechoslovakia.

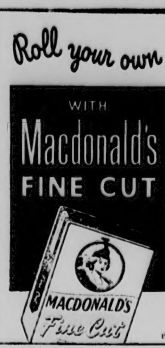

FLY MENACE

Reminding Canadians that flies are germ-carriers, the Department of National Health and Welfare, Ottawa, has issued a reasonable warning in the war against these pests. It is advised that special care be taken this summer to check screens to keep flies out of buildings, particularly where there are young children.

After they had left the young couple at their apartment and were on their way home, George ventured a suggestion. "Don't you think you're babying Judy a little too much? After all she is grown up and has been married a year."

Amelia almost drove through a stop light before she stopped. "Of course not. I know my daughter. She can't do things right without me. I've always looked after her, and I'll always have to."

George gave up. But it was time to do something about it. He lay

**Newsprint Production**

Shows Increase During The First Six Months Of The Year

Newsprint production in Canada during the first six months of this year totalled 2,092,935 tons, marking an increase of 29.7 per cent over the 1,541,413 tons for the same period in 1945, and shipments were 1,969,134 tons for an increase of 29.4 per cent over the 1,563,362 tons shipped during the first six months of last year. It was shown in figures released by the Newsprint Association of Canada.

Production during June was 334,297 tons against 260,417 during June, 1945, and shipments totalled 322,805 tons against 267,163 tons. The all-month production for the United States reached 28,685 tons, an increase of 3.5 per cent over the 27,695 tons for the similar period of 1945, and shipments were 28,743 tons against 264,212 tons. June production totalled 61,241 tons against 60,828 tons during June 1945, and shipments reached 61,671 tons against 56,492 tons.

SELECTED**RECIPES****CABBAGE AND APPLE SALAD**

1 package Lemon Jell-O
2 cups hot water
1 cup shredded cabbage
4 teaspoons vinegar
1 teaspoon salt
1 cup diced red apples
1 cup chopped washed meats
Dissolve Jell-O in hot water. Chill until slightly thickened.
Combine cabbage, vinegar, and salt and let stand about 20 minutes. Fold seasoned cabbage, apples, and meats into Jell-O. Turn into individual molds. Chill until firm. Unmold on crisp lettuce. Garnish with dressing. Serves six.

SPICE CAKE

1 cup butter
1 cup brown sugar
2 eggs
1 cup chopped floured dates
1/2 cups cake flour
2 tps. Mellow baking powder
Pinch of salt
1/2 tsp. cinnamon, cloves, and nutmeg
1 cup cold water

Method: Cream butter and sugar, add well beaten eggs, beat all together again. Stir flour, salt and spices, at least three times, and add alternately with the water, starting with the flour, beat hard for at least three minutes, bake in a well greased loaf pan for about 45 minutes in a 325 deg. F. A baked icing is nice on this cake.

CHINESE DELEGATION

Has Been In Ottawa Studying Canadian Post Office Methods

Representing the first Chinese postal delegation to visit Canada, four officials from the Director General of Posts of China, have been studying Canadian post office methods in Ottawa.

The Chinese officials left China in July 1945, and spent six months in Washington and one month in New York studying U.S. postal improvements before coming to Ottawa. The delegation now are back in the United States where they will inspect postal facilities in Chicago and San Francisco before their return to China in September.

The delegation are studying the American and Canadian postal systems from the inner sanctum of the central organization to the outer most fringes. Each official looks after a particular division.

Fundamentally, the postal system of China is very similar to Canada's. They make use of air mail, postal notes, money orders and postal savings banks in the same way. Even their mechanical equipment is much the same, but their great difficulty is the lack of sufficient equipment to cope with the huge amount of mail. Despite inflation in China postal rates have been little affected and now are on a par with Canada.

Mr. Chang, who specializes in equipment and supplies, praised the Canadian postal system for its economic and efficient methods.

"Canada, which manufactures more paper than any country in the world, has the most effective way of conserving paper in the post office that we've seen," said Mr. Chang.

The Chinese officials expressed gratitude and appreciation for the cooperation extended them by Canadian postal authorities. Every opportunity was given them to make a careful study of the Canadian system.

Flying Nurse

Attempts To Suck Out A Wide Area In Australia

SYDNEY, Australia. Travelling hundreds of miles through floods, duststorms or rain to attend the sick is all the day's work for Sister Myra Blanch, Australia's first "Flying Nurse". Appointed to the Flying Nurse Post at Broken Hill in the far west of New South Wales, she attends cases within a 500-mile radius, reaching her patients by whatever transport is available.

The Flying Doctor Service of Australia is an Australia-wide organization which provides medical aid to settlers in the far "backback" of the continent. In it, medicine, aviation and radio are combined in a unique service of goodwill. There are eight bases throughout Australia, each covering a radius of about 500 miles. At each base there is a doctor and at least one plane, fully equipped with medical supplies and stretchers. Sometimes Sister Blanch accompanies the doctor on his trips, but she frequently sets out on a solitary journey to reach some case the doctor is too busy to attend. Nearly all the journeys are long and arduous, and she finds the discomforts worth while.

Stamp Collection

Historic Envelopes Were Auctioned In United States

NEW YORK. A set of six envelopes commemorating the Royal visit to Canada and the United States in 1939 was auctioned for \$40, at the third and final disposal of the stamp collection of the late President Roosevelt. The Canadian envelopes were postmarked June 7, 12 and 13. The American covers were cancelled June 10 and 11. All envelopes carried the Royal Train postmark and were addressed to President Roosevelt at the White House in Washington.

SMALLPOX THREAT

In view of a "definite risk" of scattered outbreaks of smallpox in Canada, the Canadian Medical Association Journal, in its current issue, urges a campaign in support of vaccination and re-vaccination. Heavy postwar travel is facilitating spread of smallpox into areas relatively free of the disease.

Quality You'll Enjoy**"SALADA" TEA**

SMILE AWHILE

Caller: "I am so sorry your mistress is out. Do you think she will be at home this evening?"
Maid: "She'll have to be! It's my night out."

Junior: "What's gossip, Dad?"
Dad: "Anything that goes on in one ear and over the back fence."

"My wife always gets hysterical when I stay out late at night."
"Hysterical, you mean."
"No, hysterical. She digs up all my past."

"Boy, am I hungry."
"Why?"
"It must be something I didn't eat."

"Could you pay for an operation if I thought one was necessary?"
"Would you think one was necessary if I couldn't pay for it?"

"I ordered a dozen oranges, but you only sent me ten."

"Part of our service, madam. Two were bad, so we saved you the trouble of throwing them away."

"What do you think of the latest news of the foreign situation, Senator?"

"Don't bother me. I gotta get on the radio and talk. In a crisis like this there is no time to think."

"My husband is away so much I want a parrot for company. Does this one use rough language?"

"Lady, with this bird in the house you'd never miss your husband."

Guest: Look here! How long must I wait for the half portion of duck I ordered?

Waiter: Till somebody orders the other I duck. We can't go out and kill half a duck.

Bill: "These are the ruins of a castle built by William the Conqueror."

Wally: "Yes, but why on earth did he build it so far from the railway station?"

Proprietor: "You come into my restaurant, you order a glass of water, you drink it, and you calmly walk out."

Scot: "What were we expecting me to do, wait? Stagger out?"

"Good morning," came the cheerful voice over the telephone. "This is Morrison. Morrison & Morrison."

"Oh!" returned the startled voice at the other end of the line. "Good morning, good morning and good morning."

Yokes Form Sleeves

By ANNE ADAMS

Sure-to-succeed style for active or spectator sports is this really smart, new shortwaister. Pattern 4529 is simple to sew and simply delightful to wear.

Pattern 4529 comes in sizes 14, 16, 18, 20, 22, 24, 26, 28, 30, 32. Size 16 takes 2 1/2 yards 39 inch.

Send twenty cents (20c) in coins (stamp cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175, McDermott Ave. E., Winnipeg, Man.

HOME SAFETY

It is unsafe to leave an infant on a high table, unprotected bed or other unguarded high place, even for an instant, warns the Department of National Health and Welfare, Ottawa. If mothers must turn to something else for a moment after placing a child in such a place, they are urged to avoid home accidents by picking up and holding the child, or placing the little one back in the crib. Babies, it is pointed out, squirm so quickly, and may fall if not constantly attended to by a parent even momentarily.
